Instruction

For this challenge question, we want you to provide your own answer to a Fermi estimation. Choose one of the following questions and upload your response into the Assignments folder. The ungraded estimation tutorial in Achieve may be helpful for this assignment.

- 1 Estimate the number of steps you take during a normal day on your college campus.
- 2 Estimate many times your heart would beat during a 5-km race.
- 3 Estimate the number of oat rings in a 9-oz box of CheeriosTM.
- 4 Estimate the number of sheets of paper it would take to store a megabyte of data that consists of words.
